

## TCM Forklift Part

TCM Forklift Part - Forklift trucks are an important player in the material handling field of each global business. Transporting industrial goods takes place each and every day on our busy world. Primarily innovated as industrial vehicles during the 1930s in America, lift trucks gained popularity following WWII in the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machines spread globally.

First established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. prior to becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first lift truck. Over the years, TCM lift trucks have become an international leader in lift truck manufacturing and have built a solid reputation in the trade. TCM began building forklift manufacturing sites outside of Japan during the 1980s and is now engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

With more than 50 years of accumulated technology and expertise, TCM has been proudly making numerous models of industrial lift trucks, making their models known all around the world. With an energetic and strong workers, TCM has been able to constantly work towards becoming a future leading material handling business.
